

Company Profile

Business Description

UMT United Mobility Technology AG is specialized in the development and implementation of individual mobile payment and blockchain solutions, especially for large-scale customers, e.g. PAYBACK (American Express Group). As a white-label technology provider, the FinTech company has developed one of the largest mobile payment platforms in Europe. UMT operates between all relevant parties such as large retail chains, banks, bonus program providers and end-users. The technology is currently live in 16,000 stores and 71,000 cash desks. In Germany, 15 million users are able to benefit from UMT's mobile payment technology. In addition, UMT provides its customers loyalty programs and Smart Data services along the entire value chain.
